

# PATIENT CARE COMES FIRST

When you invest in something as important as your smile, you want it to be done right. What assurance do you have that your dentist will take care of any dental issues that arise even years after the original treatment was performed? With **High Point Family Dentistry**, you have the assurance of a dental warranty!

**GENERAL EXCLUSIONS:** Your Warranty does not cover damage to sealants, or damage to teeth, or prosthesis caused by: accidents, trauma, negligence or improper use (for example: grinding, clenching, chewing ice, or biting non-food items). Your Warranty also does not cover recurrence of decay. For dentures, partials and flippers, the warranty does not cover damage caused by the physical mishandling of the prosthesis, such as the dropping of the prosthesis or the prosthesis being chewed by a pet. Denture or partial realigns are not covered by this warranty. High Point Family Dentistry holds the right to void the warranty at their time and discretion

PROGRAM**

## WHAT IS A DENTAL WARRANTY?

High Point Family Dentistry offers a Dental Treatment Warranty for your peace of mind. Our warranty provides protection for you. It is most effective for those patients who participate in their dental health by (1) following our recommendations for treatment and (2) staying consistent with their re-care visits. This Warranty is effective upon completion of the Warranty Service Item, and your Warranty coverage is outlined, as shown in the tables below.

## MINIMUM WARRANTY REQUIREMENTS

- Return for re-care visits as prescribed, not more than thirty (30) days past your re-care due date
- Use any and all anti-decay or gum disease medication as prescribed
- Follow our recommendations regarding destructive habits such as clenching and grinding, which may fracture your teeth
- Keep account in good standing with our office, such that it has not been placed with a collections agency
- (For full upper and lower denture patients) Have re-care visit at least once every twelve (12) months
- Recurrent decay is NOT covered and is prevented by proper home care, regular dental cleanings and using anti-cavity medications as prescribed.

## IF WARRANTY REQUIREMENTS ARE MET

## IF WARRANTY REQUIREMENTS ARE NOT MET
